ASSEMBLY RATING

EASY —————> DIFFICULT

The Assembly Rating is a 5-point system showing the level of effort needed to assemble a specific product.

CHECK BEFORE STARTING

Are you missing anything?

Double-check all parts, hardware and accessories listed are all accounted for.

Check out our Quick Tips!

We recommend reviewing the pre-assembly handouts. Even experts need a refresher now and then!

Should we send any replacements?

Are there any irregularities or flaws in the parts? We can send replacements!

Prep Time!

Please review the assembly instructions and all diagrams prior to assembling.

PRE ASSEMBLY INTRODUCTION

We understand building ready-to-assemble furniture can be a challenging experience for some. To help avoid confusion, we have provided some helpful tips that may speed up the process.

Teamwork

ALWAYS have at least two people to help with transporting and assembling the product to avoid potential injury and/or damage.

Suitable Location

Assembling near the area of the intended location is highly recommended.

Sufficient Space

Make sure you have enough space to move around during the assembly.

Avoid Scratches

Use cardboard, blankets or a carpeted area while assembling furniture to prevent scratches and damages.

Flat Surface

Make sure the furniture rests on a flat and level surface with each leg evenly touching the floor.

PRODUCT TYPE

PARTS

Pillow
2 pcs.

Left armrest
2 pcs.

Seat cushion with waterproof fabric(Anti slip cloth)
2 pcs.

Small iron frame
2 pcs.

large iron frame
1 pc.

The product offers a diverse range of combination and configuration options. We recommend and encourage users to actively try various combinations to explore optimal application effects.

Care & Use Instructions

For Your Compressed Sofa, Cushion or Pillows

Thank you for your purchase!

The product you just purchased consists of compressed cushions and pillows (**pillow inclusion may vary depending on the item you selected**). Our compressed sofa is a space-saving piece of furniture that arrives vacuum-sealed for easy transportation and storage. This design reflects value engineering, improving the product to increase its value while reducing costs, and supports eco-friendly practices by reducing the carbon footprint during production and packaging.

Here are key points to consider to fully enjoy the aesthetic and functionality of your purchase:

Unpacking Your Sofa, Cushion or Pillows

- 1 Handle With Care:** Remove the sofa, cushion or pillow from its vacuum-sealed packaging gently to avoid damage. When using tools, be careful not to puncture the fabric.
- 2 Expansion Period:** Allow 3-7 days for the cushion to fully expand and regain its shape. Expansion time may vary depending on room temperature and humidity.
- 3 Initial Odor:** Foam cushions may emit a mild, temporary odor due to off-gassing. Place the cushion in a well-ventilated area to dissipate the smell more quickly.
- 4 Avoid Premature Use:** Do not sit, lie, or place heavy objects on the cushion until it has fully expanded to ensure even shaping and optimal comfort.

Daily Use

- 1 Rotation and Flipping:** Regularly rotate and flip your cushions to promote even wear and maintain their shape over time.
- 2 Weight Distribution:** Distribute your weight evenly when using the cushion to prevent sagging or indentations in specific areas.

Troubleshooting

Uneven Decompression: Gently massage or fluff areas where the foam or fill appears uneven to redistribute the material. Brief exposure to **indirect sunlight** may help with expansion, but avoid prolonged or direct sunlight to prevent material damage.

How to Fluff Your Cushions

BEFORE

AFTER

1 Unpack with Care

Remove the cushions from the packaging and let them breathe.

2 Press & Pat

Gently press and pat each cushion to help redistribute the filling and accelerate fluffing. Repeat for a few minutes.

3-7 Days

3 Allow Time to Fluff

Your cushions may take 3-7 days to regain their full fluffiness. Patience is key—let them settle naturally.
