RE: ASTM F2057-23 (STURDY) Compliant Clothing Storage Units – Revised list

The clothing storage units (CSUs) manufactured or imported by Sauder have been compliant to the voluntary stability standard ASTM F2057-19 for many years. Now that the CPSC has voted to accept ASTM F2057-23, it is the new the mandatory stability standard for (CSUs) clothing storage units. The law aims to reduce incidents involving tip-overs of clothing storage units that have injured and killed children and older adults.

The effective date of the new standard was September 1, 2023. Therefore, all Sauder CSUs produced after this effective date must be compliant to ASTM F2057-23. Compliance is not optional as it is now a federal law.

On behalf of Sauder Woodworking Company, I attest that the following units are ASTM F2057-23 compliant:

Cymax SKU	Sauder SKU	Cymax SKU	Sauder SKU
433512	433512	432062	432062-01
433514	433514	420495	420495-06
433931	433931	434920	434920
410287	410287-01		
410288	410288-01		
411197	411197-02		
411201	411201-02		
411802	411802-01		
415107	415107-01		
420824	420824-01		
423397	423397-01		
424872	424872-01		
429627	429627-01		
430044	430044-01		
430045	430045-01		
430049	430049-01		
431752	431752-01		
431895	431895-01		
433257	433257-01		
433358	433358-01		
433517	433517-01		
433518	433518-01		

Be advised that each clothing storage unit (CSU) has a label, similar to the sample below, affixed to the back of the unit for tracking purposes. Please note that this label is used for imported ASTM F2057-23 compliant CSUs. There is another version that is used for domestically produced CSUs.

Please feel free to contact me should you have questions or comments.

Sincerely,

Thomas J Wise
